FEDERATED INSURANCE

TOTAL INSURANCE SOLUTION PROVIDER

Federated Insurance's ability to provide solutions to all of your insurance needs will save you time and money. Their long standing tradition of providing high quality products combined with a "one stop shop" approach simplifies your buying process and delivers greater satisfaction.

Knowing your business matters.

The tailor made policies designed for your industry and the quality of care we provide are exceptional value added benefits inherent in all our customer relationships.

"Am I spending my valuable insurance premium dollars wisely?"

Understanding what goes into the make up of your premium is critical when making that important insurance buying decision. Are you simply paying a charge for some coverage and the anticipated help once a claim occurs? Or, is your premium providing you with quality industry based coverage, knowledgeable company representatives and access to skill sets your people will need to minimize your business's exposure to a potential catastrophe and possible financial ruin?

Insurance customers should ask "what other benefits do I receive for my premium dollar?" Why should I place my livelihood in the hands of a [Federated Insurance Risk Services Coordinator \(RSC\)](#) versus another company's representative? The right answer is: Federated Insurance provides its customers with a large variety of [specialized insurance services](#) built into the premium!

Whether your need is Property & Casualty or Life and Health, Federated Insurance can provide a customized insurance package for you. As a long-standing MSCC Partner, Federated Insurance offers special pricing and packaging for all MSCC members.
